Description

Country retreat with unbeatable convenience -- the best of both worlds. This spacious 4-bedroom home offers a smart, comfortable layout perfect for everyday living and entertaining. The large kitchen with an eat-in area flows easily into the living room, creating a natural gathering space. Between the auxiliary bedrooms, you'll find a built-in desk workstation ideal for your computer, printer, and scanner -- a ready-made home office hub. The primary suite features a walk-in tub and a huge closet with built-in drawers (see photos). Down the hall, a cozy family room with fireplace provides an additional relaxation space. Owner says, this is an Estate Sale and knows there repairs, so make an offer! New Roof May, 2026 A second full bath sits conveniently next to the laundry room, which includes a flex room/storage room you can tailor to your needs. Outside, the charm continues: a welcoming front porch and a full wraparound back porch offer multiple spots for family time, morning coffee, or evening entertaining. The backyard gently slopes down to the waterfront, giving you direct access for fishing, boating, and peaceful views. A true retreat -- with room to spread out, space to work, and nature right at your back door.
