Description

Let me tell you what I really love about this home at 101 Mark Street in downtown Easley... First, it just feels good the minute I walk in. The light is what gets me every time. Those big windows let sunshine pour in and every room feels bright, happy, and open. It doesn't feel heavy or dark at all. The fresh paint and updated floors make it feel clean and completely move-in ready while still holding onto the charm you want in a downtown Easley home. And the kitchen... I love this kitchen. That huge window over the sink is everything. It brings in so much natural light and just makes the space feel alive. The granite countertops, pretty appliances, and beautiful cabinetry all come together in a way that feels fresh, updated, and timeless. I also really like how the layout is set up. The primary bedroom is split from the guest rooms, which gives you privacy that's hard to find in homes like this. And that primary bath... the walk-in shower is just beautiful. The tile work is so well done and feels like something you'd expect in a much higher price point. The guest rooms are a great size, and the guest bath continues that same attention to detail with updated finishes and nice tile work. You can tell the seller was thoughtful and intentional, keeping the character of the home while giving it the updates buyers are actually looking for. Another thing I love is the long concrete driveway the seller added. Parking is easy here, with plenty of space for multiple cars, guests, or everyday living, which is a huge plus for downtown Easley. And then the location... this is what people are searching for. You are within walking distance to The Silos and just minutes to local favorites like Amici Easley and The Smokin Pig. Downtown Easley is quaint, walkable, and full of charm with restaurants, shops, and community events right at your fingertips. This renovated home in downtown Easley offers big windows, bright rooms, granite countertops, updated bathrooms, a split bedroom floor plan, and walkable access to restaurants and The Silos... all at a price point that is hard to find in today's Easley real estate market.
