- Contemporary

Description

For Those who expect the BEST. Welcome to 125 Jungle Road, a newly constructed custom residence that offers an elevated expression of Lowcountry living overlooking expansive marsh views. Thoughtfully customized from the Solomon floor plan and extensively upgraded throughout, this 5-bedroom, 4.5-bathroom sanctuary was designed to pair everyday comfort with seamless entertaining, and situated just one minute from eight miles of shell-strewn beach, local dining, shopping, and golf. From the moment you enter, the main level opens into a bright, flowing living space where the family room, dining area, and chef's kitchen converge. At the center of the home, the gourmet kitchen shines with a 36-inch gas range, custom wood hood, 42-inch cabinetry, quartz countertops, a full-height tile backsplash and an oversized island anchored by pendant and under-cabinet lighting. Practical luxury extends to a farmhouse sink and a pantry outfitted with custom wood shelving. Craftsman architecture and fine details elevate every corner, featuring hard-surface flooring throughout much of the interior, solid-core doors, 7-inch cove crown molding, stained wood stair treads, custom built-ins, stainless appliances, smart wiring, and a fireplace wrapped in vertical shiplap. Built with durable fiber-cement siding and elevated coastal construction, the home is complete with a three-stop hydraulic elevator providing effortless access from the drive-under garage to all living levels. Designed to maximize coastal breezes, vibrant sunsets, and panoramic vistas over the surrounding marsh, the rear of the home has been substantially expanded beyond the original plan to create a covered, screened porch spanning approximately 12 feet deep across the rear as well as a concrete pad on ground level below for entertaining. A four-panel bi-parting slider disappears to link the family room to this outdoor living space, with plenty of room remaining on the grounds to add a private pool taking in the tranquil marsh backdrop. Tucked on the main floor, the primary suite serves as a quiet retreat, boasting an upgraded bath with a freestanding tub, tiled shower with frameless glass enclosure, quartz surfaces, and a walk-in closet with custom wood organization. Nearby, a versatile flex room behind French doors provides the ideal space for a home office, library, or sitting room. Upstairs, a cozy central loft creates an inviting second gathering area away from the main hub. Accommodating family and guests with ease, two of the upstairs bedrooms enjoy their own private full baths, while two additional guest bedrooms share a Jack-and-Jill layout equipped with private vanities for each room and a shared, coastal-inspired tub/shower. All secondary baths continue the home's high design with custom tile selections and premium finishes. Whether envisioned as a permanent residence, a secondary getaway, or a premier rental investment, 125 Jungle Road captures the very best of modern coastal living.
