Description

Escape the noise and discover the freedom of country living on this stunning 5-acre property, where privacy, space, and endless possibilities come together. Surrounded by peaceful open fields and mature trees, this beautifully maintained all-brick, one-story home offers approximately 3,000 square feet of comfortable living with four oversized bedrooms, two owner's suites, and two spacious living areas--making it ideal for multi-generational living or creating the perfect in-law suite. This listing is for 3 acres and the house. If you are interested, 2 additional acres and a barn can also be purchased for an additional \$125,000. The well-appointed kitchen features upgraded appliances, while the expansive front porch provides the perfect place to relax, unwind, and take in the breathtaking rural views. Inside, you'll find generous room sizes and a flexible floor plan designed to fit a variety of lifestyles. Outside is where this property truly shines. With no HOA and no restrictions, you'll have the freedom to park your RV, boat, trailers, and equipment right on your own property. A fenced area is already in place for pets, while the remaining acreage is perfect for horses, goats, chickens, gardens, orchards, or simply enjoying the peaceful surroundings. If you've been dreaming of starting your own homestead or mini farm, this property is ready to make that dream a reality. Properties offering this much land, flexibility, and privacy are becoming increasingly rare. If you're looking for room to grow, room to breathe, and room to live life your way, you've just found it.
