This brand-new construction offers 4 bedrooms, 3.5 bathrooms, and includes solar panels with a Tesla® battery package, helping reduce monthly energy costs while providing backup power and protection against rising utility rates. A dedicated study gives you the flexibility to create the perfect home office or hobby space. At the center of the home, a spacious kitchen opens to the dining area and great room, making it ideal for both gatherings and everyday living. A convenient mudroom with generous storage adds function to style. The private primary suite is set apart from the two secondary bedrooms, providing comfort and privacy for daily living. The primary bathroom offers a large shower with 2 separate vanities. As America's number one energy-efficient homebuilder, we're proud that in 2025 our homes achieved an average net HERS® score of 32 (with solar)—the lowest publicly reported among the top 30 U.S. homebuilders by volume in Builder Magazine's Top 100 list (ranked by 2025 closings).
