Description

***Back on the market because the buyers could not sell their home in time!* Discover move-in ready, low-maintenance living at 163 Machrie Loop Unit A in Myrtle Beach, SC. This beautifully maintained 3-bedroom, 2.5-bath Myrtle Beach townhome combines modern finishes, peaceful pond views, and an unbeatable location close to shopping, dining, golf, and coastal attractions. With 1,884 heated square feet and 2,429 total square feet, this lightly lived-in home offers the perfect blend of comfort and style in the quiet Berwick at Windsor Plantation neighborhood. The open-concept design creates a bright and inviting atmosphere, highlighted by luxury vinyl plank flooring, neutral coastal tones, and abundant natural light. The kitchen is designed for both everyday living and entertaining with quartz countertops, stainless steel appliances, extensive cabinetry, and a spacious center island. The primary suite serves as a private retreat with tray ceilings, generous space, dual vanities, and a large walk-in shower. Additional bedrooms provide flexibility for guests, hobbies, or a home office setup. One of the home's most impressive features is the rear enclosed and epoxied patio with brand new Eze-Breeze windows overlooking the serene pond view. Whether enjoying coffee in the morning or relaxing in the evening, this space extends your living area beautifully year-round. Where most townhomes and and condos are short on storage, your attached 2-car garage will have plenty of room for all your needs. It even has space for the brand new whole home water filtration system that was installed earlier this year.**
