Description

Life at the beach starts here. Tucked in the highly sought after South Beach Cottages community, this raised beach house puts you just steps from the sand, without sacrificing space or style. With 4 bedrooms, 3.5 baths, and 2,429 square feet spread across a smart, functional layout, there's room for the whole family or a steady stream of guests. The elevated design is classic coastal, offering covered parking below and a bright, open living space above where salt air and natural light set the tone. The kitchen flows easily into the main living and dining area, ideal for entertaining after a day on the beach. With three and a half baths and four well proportioned bedrooms, everyone gets their own space to unwind. Rinse off the sand before you even walk inside, thanks to the outdoor shower waiting for you underneath the home. Take a dip in the community pool just steps away, a favorite perk for owners and guests alike. Outside, low maintenance living meets true walkability. Leave the car and walk to the beach, with Myrtle Beach's restaurants, shops, and entertainment all close by. This is a true turnkey short term rental, completely furnished and ready to go from day one. With its space, layout, and prime location, this home offers the kind of proven guest appeal that keeps bookings coming. Whether you're looking for a primary residence, a second home, or an investment property, this home checks every box for coastal living done right.
