Description

This former model home offers 4 bedrooms, 3 baths and approximately 2,371 square feet in Mayfield Crossing. One of the standout features of this home is storage — every bedroom has a walk-in closet, including an impressive primary suite with a separate sitting area and TWO large walk-in closets. The main level offers a formal dining room that flows through a butler's pantry into the open-concept kitchen featuring dark cabinetry, hardwood floors, a gas range and breakfast nook. The spacious family room with gas fireplace creates an inviting layout for everyday living and entertaining. Upstairs, the oversized primary suite includes its own sitting area, two walk-in closets and a private bath with separate soaking tub and shower. Three additional bedrooms each offer their own walk-in closet, and the second-floor walk-in laundry room means no carrying laundry up and down the stairs. The home was originally built as the community's model home and includes thoughtful upgrades such as decorative molding and chair rail details. A stair lift is also currently installed, providing convenient access between levels. Location is another major advantage: approximately 8 minutes to GSP International Airport and Pelham Medical Center, about 9 minutes to BMW Manufacturing, with convenient access to I-85, shopping, dining and major employers. Zoned for Abner Creek schools. If you've been looking for space, storage, upgrades and a convenient Upstate location, 274 Braselton deserves a closer look. Schedule your private tour today!
