- Smoke Detector
- No Basement

Description

It's hard to find this much SPACE at this price, especially with nearly half an acre to go with it. From the oversized living areas to the expansive backyard, this home gives you room to live bigger without paying the price you might expect for it. The main level was designed for connection, with the living room flowing into a spacious kitchen and dining area that makes everyday living and entertaining easy. A large center island, granite countertops, shaker-style cabinetry and stainless steel appliances anchor the kitchen, while luxury vinyl plank flooring and a beautiful oak staircase add warmth throughout the main living spaces. The main-level guest suite and full bath provides even more flexibility for overnight guests, a private office or additional living space. Upstairs, the large loft feels like having another living room entirely. Create a media space, workout area, hobby room, home office or a combination of several. The spacious primary suite adds another layer of comfort with tray ceiling, TWO walk-in closets and French doors opening to an ensuite bath with double vanity, garden tub, separate shower and private water closet. Even the secondary bedrooms come with walk-in closets, adding the kind of everyday storage you'll appreciate. Step onto the back deck and the value becomes even more apparent. The 0.48-acre lot provides a large backyard with room to entertain, garden, relax or create the outdoor space you've been wanting. Smart-home features, integrated speakers, irrigation and a gas tankless water heater add convenience behind the scenes. With this much interior space, nearly half an acre and convenient access to I-20, this is simply A LOT OF HOUSE for the money. Come experience the space for yourself.
