- Mobile Home

Other

- Central
- Carport

Description

Welcome to 4190 Double Dee Rd. in Aynor, where beautifully designed interiors, an exceptionally spacious floor plan and the freedom of rural living come together on approximately half an acre with NO HOA! Offering 2,432 heated square feet, this 32' x 76' Clayton Homes Everest model provides an impressive amount of living space with 4 bedrooms, 2 full baths and two separate living areas. But square footage alone doesn't tell the story of this home. The current owners have styled and finished the interior with such attention to detail that it feels as though a professional interior designer had a hand in creating it. From the coordinated finishes and décor to the inviting flow from room to room, this is a home that immediately feels polished, comfortable and welcoming. The split-bedroom floor plan provides separation between the spacious primary suite and the three additional bedrooms, while the heart of the home remains open and connected. A generous kitchen anchors the main living area with a large center island offering plenty of workspace and seating, and all kitchen appliances convey with the home. The kitchen opens naturally into the dining and living spaces, creating an ideal layout for entertaining, holidays or simply enjoying everyday life. One of the standout features of this floor plan is its two distinct living spaces. In addition to the main living room, a second family room or den provides even more flexibility for entertaining, a media room, game room, reading area or simply a second place to relax. A dedicated office nook provides a convenient work-from-home or homework space without sacrificing a bedroom. The primary suite is privately positioned on the opposite side of the home and offers a spacious retreat with a large walk-in shower and featuring a double vanity and dual sinks. The home's thoughtful layout also includes a mudroom-style rear entrance and roomy utility area, adding the kind of practical everyday function buyers appreciate. The sellers have continued their improvements outside as well. Front and rear decks have been added, extending the living space outdoors and providing places to relax and enjoy the peaceful rural surroundings. A white vinyl privacy fence creates a defined and private backyard area, and a freestanding carport is conveniently positioned just inside the fenced area. The sellers also obtained a county permit to replace a substantial portion of the original vinyl siding with Hardie-plank siding, adding another notable improvement to the property. The location offers an appealing balance between country living and accessibility. Enjoy the quieter setting and extra breathing room of rural Aynor, while remaining convenient to Downtown Conway, where locally owned restaurants, shops, historic architecture, community events and the Waccamaw Riverfront make it an increasingly popular place to spend an afternoon or evening. Loris is also within convenient reach, providing another nearby option for shopping, dining, schools, services and small-town amenities. And when you're ready for the coast, the location provides convenient access to Hwy 22, offering an easy route toward Myrtle Beach and the Grand Strand without having to depend entirely on the heavier traffic traditionally associated with the Hwy 501 corridor. Whether you're headed to the beach for the day, dining along the coast or enjoying everything the Myrtle Beach area has to offer, you can return home to your own half-acre setting away from the congestion.
