Description

Welcome to a truly unique opportunity in Johnsonville! Situated on approximately 1 acre, this 2-bedroom, 2-bath Quonset hut-style home is currently under construction, giving you the opportunity to own a home that stands apart from the ordinary. The distinctive arched metal roof design creates an impressive interior with soaring ceiling heights and an open, spacious feel, while the brick exterior planned for the front and rear adds a more traditional touch to this one-of-a-kind design. The main level is thoughtfully designed with both bedrooms and bathrooms, along with an open-concept living room, dining area, and kitchen. The primary bedroom includes its own private bath, while the second bedroom and additional full bath provide a flexible layout. The kitchen opens directly into the dining and living areas, allowing the dramatic shape and height of the Quonset structure to become a focal point of the home. Upstairs, the plans include a loft area overlooking the living space below, along with a large storage area, adding valuable usable space beyond the main-level layout. The open loft takes advantage of the height of the arched roof and could offer plenty of possibilities depending on the buyer's needs. Outside, the approximately 1-acre homesite provides plenty of open space and a peaceful rural setting surrounded by mature trees and countryside. With construction already underway, this is a rare chance to own a distinctive home that combines a functional floor plan, generous property, and unmistakable Quonset hut architecture. Come see the possibilities and watch this unique property take shape! Buyer is responsible for verification.
