Description

Brand New Proposed Construction. The Autumn home plan delivers the ease of main-level living with the added flexibility of an optional upstairs bonus area. As you enter, you're welcomed by a bright, open layout connecting the living room, kitchen, and dining areas--ideal for both daily living and entertaining. Two secondary bedrooms are located down the hall and share a split-layout bathroom, with the sink separated from the tub/shower and toilet for better functionality. At the front of the home, a flex room offers the perfect space for a home office or can easily serve as a fourth bedroom to suit your needs. The owner's suite is tucked away at the back of the home for privacy and features large windows overlooking the backyard. The ensuite bath includes dual vanities, a private watercloset, and a walk-in closet with direct access to the laundry room. Upstairs, a spacious optional bonus room with an available full bathroom offers added flexibility--perfect for a media room, guest suite, or playroom. 2 car detached garage with ADU above it.
