Description

Still under construction and already showing its character. This new build brings craftsman charm to Ruby Golightly Dr, with a pair of front-facing gables, a welcoming covered porch, and an attached two-car garage that sets the tone before you even step inside. Once complete, this home will offer 3 bedrooms and 2.5 baths across a layout built for everyday living. Luxury vinyl plank flooring will run through the main living spaces, giving you the warmth of wood with none of the upkeep, while granite countertops bring a polished, lasting finish to the kitchen. With framing up and the roof on, this one is moving right along. Buyers still have a window to make it their own; ask about available finish selections.
