Description

Exceptional opportunity to own a premier 0.67-acre (29,537 sq ft) homesite featuring breathtaking, panoramic marsh and tidal creek views. Positioned to capture sweeping vistas across protected wetlands and waterway channels, this oversized lot offers one of the most dramatic natural backdrops along the coast. With its generous size and depth, the property provides outstanding flexibility for a substantial custom residence with expansive porches, outdoor living areas, and pool. From a third-level rear porch, you can enjoy potential ocean views in addition to the wide marsh panorama — giving you the rare combination of marsh serenity and ocean horizon. Large, private, and beautifully positioned, this is the ideal setting for a signature Lowcountry home designed to maximize elevation and view corridors. Opportunities of this scale — nearly 30,000 square feet with privacy, sweeping marsh frontage, and possible ocean views — are increasingly rare.
